Design statement

I am a third year student at Western Sydney University studying a Bachelor of Design (visual communication).

I'm passionate about finding functional design solutions supported by research and development, a team player who is quick to adapt to new environments, working standards, and co-workers. My design career has just begun, however I am interested in pursuing a career in UX/UI design as my skills thrive in these areas.

Skills

Interactive design skills

Visual communication

Branding

Writing skills

Proficient in Adobe suite

Web Design

Education

Bachelor's Degree - Design (Visual Communication)

Western Sydney University

March, 2021 - current

Undertaken subjects in graphic design and obtained skills in typography, branding, packaging design, data visualisation and advertising. I have completed subjects in motion design, Australian design, web design and excelled at interactive design with experience in making apps and games. I have obtained skills in the Adobe suite such as illustrator, photoshop, Indesign, XD and after effects and Atom.

High School Certificate

Cheltenham Girl's High School

2012 - 2017

Excelled in visual arts (band 6) with a runner up position in Art Express. English, food technology (band 5). ATAR 80

Employment

Harris Farm Markets

January 2018 - Current

Department lead of perishable department. Managing a team of 3 members of staff. I organise stock shipments, claims, logs and stocktake checks.

Interests

My interest in UX/UI sparked when conducting research into a topic and orchestrate multiple, fast-turn around testing and prototyping to build functional designs, where the user can easily and intuitively find what they need.

What i do when i'm not working

When i'm not designing I work part time at a grocery store, and take any opportunity to travel. I find great inspiration from traveling by meeting new people and experiencing different cultures. I am fascinated by art history and music, I like to whip out the flute or saxophone when I can! Witnessing and researching social issues is what inspires my work and drives a successful outcome.
